

- Legend**
- Road
 - Watercourse
 - City of Quesnel Municipal Boundary
 - Quesnel OCP Boundary
 - Excluded Areas
 - Waterbody
 - Surficial Geology
 - Af - Fan sediments
 - Ap - Floodplain sediments
 - At - Terrace sediments
 - Ch - Landslide debris
 - Cs - Slope colluvium
 - Gb - Glaciofluvial blanket
 - Gh - Ice contact deposits
 - Gt - Glaciofluvial terrace sediments
 - Lb - Glaciolacustrine blanket
 - Lv - Glaciolacustrine veneer
 - O - Organic deposits
 - R - Bedrock
 - Tb - Till blanket
 - Tm - Thick till, rolling
 - Tv - Till veneer

Explanatory Note
Regional Surficial geology mapping has been completed in the north half of the study area (NTS Mapsheets 093G01 and 093G02)

Reference
Base mapping provided by Cariboo Regional District (CRD)
Surficial Geology: Geological Survey of Canada Maps NTS 093G01 and 093G02, A. Blais-Stevens and J.J. Clague, 2007.
