For Immediate Release

## Order downgraded to alert for Narcosli area

*Williams Lake, B.C.* – Effective immediately, the Cariboo Regional District has downgraded the evacuation order for the 23 properties in the Narcosli area to an evacuation alert. Residents can return to the area.

See a map of the affected areas: <https://bit.ly/2wxEAAP>

Use the CRD's online interactive map to see all the areas on evacuation alert or order and the wildfires in the area: <https://bit.ly/2tcpS1e> (there may be a delay before the map is updated)

Wildfires remain active and firefighting activities continue in the area. It is important for residents to stay out of active wildfire areas. Interfering in an active fire area will result in crews ceasing ground and air operations potentially endangering nearby properties.

Since these areas remain on evacuation alert, residents must be prepared in case the area receives a future evacuation order. Information about what to do when on evacuation alert is listed below.

Residents returning to the area are encouraged to register for the Cariboo Chilcotin Emergency Notification System to receive a text, call or email regarding Evacuation Alerts and Orders: [member.everbridge.net/index/453003085612292#/signup](http://member.everbridge.net/index/453003085612292#/signup)

### Re-Entry Information

### Remaining on Evacuation Alert

Since the area remains on evacuation alert, residents should remain prepared for an evacuation by:

- Having a plan to transport all family members or co-workers outside the area, should the area be brought back under evacuation order.
- Keeping essential items readily available for a quick departure, including medications, eyeglasses, valuable papers (i.e. insurance), immediate care needs for dependents and, if you choose, keepsakes (photographs, etc).
- Ensuring that any dependents are prepared for departure.
- Ensuring that pets and livestock remain in a safe area.
- Ensuring that you have accommodation options for your family, if possible. A Reception Centre will be made available again if required.
- Monitoring reliable news sources for evacuation order information. Further information will be issued as it becomes available.
