CRD lifts evacuation alerts for Tatelkuz, Chutanli, Baezaeko and Blackwater areas

Williams Lake, B.C. – Effective immediately, the Cariboo Regional District has lifted three evacuation alerts affecting 403 properties in the Tatelkuz Lake, Chutanli Lake and Baezaeko/Blackwater areas. These areas, which are about 100 kilometres northwest of Quesnel, are now all clear.

The evacuation alerts were in place due to the [Chutanli Lake](#), [North Baezaeko](#) and [Blackwater River](#) fires.

See an overview map at <https://bit.ly/2O41jMd>.

Use the CRD's online interactive map to see all the areas on evacuation alert or order and the wildfires in the area: <https://bit.ly/2r9P2MQ> (there may be a delay before the map is updated)

To ensure public safety, stay out of fire affected areas and obey all warning and hazard signs.

For rural properties that have been impacted by wildfire, residents should be aware there may be danger trees in wildfire affected areas. Home owners and private land owners are recommended to work with an insurance agency to have an assessment done by a qualified arborist on their private property.

Residents are encouraged to register for the Cariboo Chilcotin Emergency Notification System to receive a text, call or email regarding evacuation alerts and orders: member.everbridge.net/index/453003085612292#/signup
